

Prof. Dr. Jagoda Bajevska

Prof. Dr. Jagoda Bajevska was born in Galichnik. She finished dental technician school and graduated at the faculty of medicine- department for dentistry, after which she was employed at the clinic for fixed prosthodontics. Soon afterwards she was elected junior assistant, assistant teacher in fixed prosthodontics, and specialized in fixed prosthodontics. She completed her postgraduate studies in dentistry at the faculty of dentistry in Skopje, achieving MSc and PhD degrees.

She was elected research fellow, associate professor and professor for fixed prosthodontics. She was manager of the department for fixed prosthodontics and head of chair. At this moment she is manager of the institute for science and research.

Prof. Bajevska has a high expert attitude in her dental health practice. Her special interests are fixed prosthodontic restorations on periodontically damaged teeth, as well as solutions of cases with undesired complications after cementation of restoration. She is author and co-author of numerous papers in the field of fixed prosthodontics, participating at various scientific manifestations and congresses home and abroad. She is participating in the realization of the graduate and postgraduate studies, holding lectures for dental, dental technician and dental nurse students.
